

State and Local Cybersecurity Grant Program (SLCGP)

Helping Arkansas Communities Address Cybersecurity Threats.

The SLCGP enables the Arkansas Department of Emergency Management to make targeted cybersecurity investments in local government agencies, thus improving the security of critical infrastructure and resilience of the services local governments provide to their communities.

SLCGP Cybersecurity Assessment

Benefits of the Program:

Mainstream Technologies' Security Compliance Assessment is based on the Arkansas Legislative Audit (ALA) IT Best Practices Framework.

The State and Local Cybersecurity Grant Program (SLCGP) cybersecurity risk assessment informs you of the strengths and weaknesses of your current security posture and identifies where improvements can be made to comply with the ALA framework.

What Do You Get With The Assessment?

* Detailed and Prioritized Vulnerability Reports

Recommended Remediations Report
